

## What we do:

As a distributor for heat exchangers, Valutech offers pool owners and contractors a much more affordable alternative to conventional direct fired pool heaters. Our heat exchangers offer advantages that direct fired **swimming pool heaters** simply cannot meet.

## What we sell:

We sell pool heat exchangers to pool owners and swimming pool contractors.

## How we ensure quality:

We are ISO 9001:2000 registered so you can be assured of a consistent and trusted product.

## Pool Heaters:

### CN Series Pool Heaters

CN series pool heaters are designed with corrosion resistant cupro-nickel tubes and bronze end covers making them ideal for dealing with the effects of salt water.

### B Series Pool Heaters

We offer the B-Series swimming pool heat exchangers for standard swimming pools. The B-Series pool heaters are constructed of stainless steel 316.

### Titanium Series Pool Heaters

We offer titanium swimming pool heaters for both chlorinated pools and salt water pools. Our pool heaters provide a simple method of heating pool water indirectly from a central heating boiler.

## Alfa Laval's Alfa Nova Series Pool Heaters

We offer the AlfaNova plate heat exchanger for heating swimming pool water indirectly from a central heating boiler. Try the world's first 100% stainless steel plate heat exchanger.
